

Oak Hammock Marsh "On the Go" Presentation Selections

World of Wetlands

(Gr. 1-6)
These important and diverse habitats are brought to life in this presentation filled with colourful images and props.

Soils, more than just Dirt

(Gr. 3-6)
Through experiments and games, find out more about the properties of soil and the wildlife that call it home.

What's for Dinner?

(Gr. 5-10)
Birds of prey cough up pellets of undigested fur and bones. Dissect a sterilized pellet to discover what a barn owl had for dinner! Extra charge of \$2.50 per pellet. One pellet per two students is recommended.

Radio Telemetry

(Gr. 6 - S4)
Explore the world of wildlife research through hands-on radio tracking.

All About GPS and GIS

(Gr. 7 - S4)
In this program, learn the background of GPS and GIS and how they relate to each other. Hands on use of a GPS unit is the feature of this program.

Bird Quest

(Gr. 1-6)
What makes a bird a bird? Have fun identifying and categorizing your birds while exploring the amazing diversity of our surroundings.

Hawks, Owls, Falcons oh my!

(Gr. 3-6)
Learn about local birds of prey and their fascinating adaptations. Program includes games.

Stargazing

(Gr. 5-9)
Learn about our solar system. Discover the stars and some of the legends surrounding them. Dark room required.

Animal Teachers

(Gr. 1-6)
Animals can be great teachers! Students will learn from the turtle, owl and other animals through various activities.

Project WILD

(all ages)
Have fun learning about wildlife with these age-appropriate activities and games!

Wacky Weather

(Gr. 1-6)
Find out how weather affects the lives of all animals, including humans! Use simple devices to measure the weather.

Explore Watersheds

(Gr 1-8)
Learn the importance of wetlands through a watershed model demonstration and age-appropriate project WET activities.

Creatures of the Night

(Gr. 1-6)
Bats are fascinating and important animals. Learn more about these creatures of the night! Program includes games.
