

# Oak Hammock Marsh "Wetland Ecovan" Presentation Selections

## Preschool/ Kindergarten

### Neat Feet & Beaks

Can you tell where a bird lives or what it eats by its feet and beak? Animals have special characteristics that help them live in different habitats. Create your own feeder and give it as a treat to the birds. *Note: seed may have come into contact with nuts. (indoor)*

### Beavers & Muskrats

Explore the life of these two amazing mammals and learn about the adaptations that make them so unique. *(indoor)*

## Grades 1 to 4

### Project WET

Join us for lots of fun, interactive and hands-on water-based activities! Topics can include states of water, pollution, aquatic wildlife, properties of water and more. *(indoor)*

### Birdfeeders

Learn about bird feeding adaptations and strategies. Make your own simple birdfeeder to take home. *Note: seed may have come into contact with nuts. (indoor)*

### Beavers & Muskrats

Use pelts, mounts and other props to discover the interesting adaptations that allow beavers and muskrats to survive the Manitoba climate. *(indoor)*

### Surviving the Freeze

Through interactive activities, discover how plants and animals prepare for the winter months and adapt to meet the challenges of cold weather. *(indoor/outdoor)*

## Grades 5 to 12

### Explore Watersheds

Through a demonstration model and various grade-appropriate activities and games, students learn the importance of wetlands and watersheds. *(indoor)*

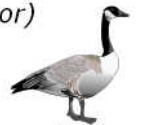

### What's for Dinner?

Discover Manitoba's owls and their special adaptations. Dissect a sterilized pellet to discover what a barn owl had for dinner! *(indoor)*

*Extra charge of \$3.00/pellet + tax. One pellet per two students is recommended.*

### World of Wetlands

These important and diverse wildlife habitats are brought to life in this presentation filled with colourful images and props. *(indoor)*

### Aboriginal Games

Test yourself with some of the games that were played both for skill building and fun. *(indoor/outdoor)*

**2 interpreters  
half day - (4 presentations)  
starting at \$350**

**2 interpreters  
full day - (8 presentations)  
starting at \$550**

**Maximum:  
30 students  
per class**

**Mileage fee  
may apply**

### Need Some Suggestions??

Grade N/K: Neat Feet & Beaks  
Grade 1: Birdfeeders
